What Does It Feel Like To...??

Have you ever asked yourself or someone else the simple, but maybe puzzling, question, "What does it feel like to...," and then fill in the blank? I have heard people ask the question, "What would it feel like to die or to have a near death experience?" That question really got me thinking. What would it feel like to die or to be close to it? When thinking about it, maybe you have a sense of fear or maybe you have calmness about it, but when I think about it, I get mixed emotions. Death is a scary thing but if you are saved then you should have no fear about it. I know for a fact that when I die or come close to it I do not have to have any fear because I know where I am going to go when I go from this world. There are people all over the world, though, who are lost and have no assurance of where they will go when they die. Because of this, those are the people who will fear death. But we as Christians should be ready and awaiting the day when we get to see the Lord with excitement. Your day is coming, are you ready?
